DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed 09 May 2005 amends claims 35, 37, 38, 40, 42-51, and cancels claims 1-23, 25, 26, 30-34, 39, 53. Applicant's amendment has been fully considered and is entered.

Response to Arguments

2. Applicant's arguments, filed 09 May 2005, have been fully considered and are persuasive. The previous claim rejections have been withdrawn.

Allowable Subject Matter

3. Claims 24, 27-29, 35-38, 40, 42-52, and 54-58 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose a method of authenticated a printer cartridge at a printer wherein the printer sends the printer cartridge a challenge that the printer cartridge uses to compute a computation result, using a non-reversible algorithm, that is sent back to the printer. After receiving this computation result, the printer calculates a similar computation result using a different non-reversible algorithm and the same challenge and compares the two computation results. If the computations match, then the printer is allowed to function with the printer cartridge.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
